**COMENTARIO DEL AGENTE:**

This beautiful fast sloop has been meticulously maintained by its two previous owners. It is a perfect example of the brilliant **German Frers** design, creating unique and exciting boats particularly suitable to purist sailors who love both, comfort and speed. Due to its light weight it will easily sail in 5 knots of wind and in some cases sails faster than the actual wind speed. Its attractive blue hull is constructed in composite material, as are also its interior bulk heads. The interior is all veneered in a beautiful light cherry wood giving it plenty of light and creating a perfect contrast with the elegant and practical blue upholstery. It has a particularly big, spacious cockpit with a teak table that folds down into the floor when not needed creating a beautiful uncluttered open cockpit.
